The Standard AND RIVER PLATE NEWS.

No. 1400—Sixth Year. BUENOS AYRES, SATURDAY, OCTOBER 6, 1866. Circulation 2,500.

MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 3 p.m.

P. P. Maua & Co.
WILLIAM LESLIE.

Camps to Let.

To be let, for the term of six years, from the 1st of January, 1867, at Leones, partido of Mercedes, the run of five or six flocks of sheep as may be required. The land is of the very best quality, and the situation convenient, being within two leagues of the Freiro Station. The dwelling-house is azotea, and contains sala, dining-room, and four bed-rooms, with boarded floors, kitchen, and pantry. Applications to made to Don Silvestor Torroba Mercedes.

61 | 1m,s11

RAMS.

Rambouillet Rams, of unrivalled qualities, can be had at the Cabaña de los Alamos, Cañada de Gaiti, Quilmes. These rams, bred by Mr. Latham with careful attention to physiological laws, and with a view to conciliate every desirable quality, i.e., perfect type, length of wool, closeness of pile, soundness of staple, weight of fleece, size of carcase and fatting properties, together with hardiness and procreative vigor, have no equals in the country as regenerators of the existing breed of sheep, the degenerate and unthrifty qualities of which operate to the palpable prejudice of the sheepfarming interest. The principle which Mr. Latham adopts in breeding these rams—which is distinct from that generally and universally adopted by the breeders in the River Plate—gives to his stock a power of transmitting type, which none other possesses in so high a degree, and from the want of which so much disappointment and degeneracy arises.

From Friday, the 18th of May, inclusive, the following alterations will be made in the Traffic: One third of the First Class Saloons will be converted into smoking apartments, with communication with the other part of the saloons. The cars hitherto used as Smoking Saloons will be used entirely for second class passengers. First class passengers will pay, as at present, five dollars, children from 3 to 10 years, three dollars; second class, three dollars, children two dollars. Return tickets, good for the day, will be given—first class eight dollars, children five dollars; second class five dollars, children three; also monthly tickets of first class for two hundred dollars.

Flag stations at Casa Amarilla and Barraca de Peña. Passengers wishing to alight there will give previous notice to the guard.

HENRY SIMPSON, Manager.

To the Moving World!!!

Families and others moving will find it greatly to their advantage to employ the furnitnre cars of the undersigned. Pianos and furuiture of frail construction handled with the greatest of care, the owners replacing any article broken during the act of moving. Honest and reliable peons employed. A great inducement is offered by moderate charges.

Please apply at No. 102 Calle Esmeralda [Caballeriza].

Camps to Let.

To be let, for the term of six years, from the 1st of January, 1867, at Leones, partido of Mercedes, the run of five or six flocks of sheep as may be required. The land is of the very best quality, and the situation convenient, being within two leagues of the Freiro Station. The dwelling-house is azotea, and contains sala, dining-room, and four bed-rooms, with boarded floors, kitchen, and pantry. Applications to made to Don Silvestor Torroba Mercedes.

61 | 1m,s11

RAMS.

Rambouillet Rams, of unrivalled qualities, can be had at the Cabaña de los Alamos, Cañada de Gaiti, Quilmes. These rams, bred by Mr. Latham with careful attention to physiological laws, and with a view to conciliate every desirable quality, i.e., perfect type, length of wool, closeness of pile, soundness of staple, weight of fleece, size of carcase and fatting properties, together with hardiness and procreative vigor, have no equals in the country as regenerators of the existing breed of sheep, the degenerate and unthrifty qualities of which operate to the palpable prejudice of the sheepfarming interest. The principle which Mr. Latham adopts in breeding these rams—which is distinct from that generally and universally adopted by the breeders in the River Plate—gives to his stock a power of transmitting type, which none other possesses in so high a degree, and from the want of which so much disappointment and degeneracy arises.

EDITOR'S TABLE.

The Iron King arrived in port yesterday at 1 p.m., with the corpses of Colonel Charlone, Captain Sarmiento, and another, in charge of Lieutenant Ocampo. She was nine days coming from Corrientes, and reports the Eponina aground above Paraná, with a cargo of wounded.

Captain Davis did not go in the Pollux to Gualeguay this time, but has remained to take charge of the Castor and two iron launches, which are going to assist next Monday in laying the River Plate cable.

The Calypso is due from Montevideo this morning.

The Solis steamed into the Tigre yesterday morning with 90 passengers. She brings no news whatever from head-quarters, nor even anything about the missing steamers.

To-morrow a number of our newly-arrived countrymen leave for the camp. We have sent several out to our agent in Mercedes, and hope they will all get good situations with the farmers outside. They are strong, active, young fellows, and will prove a great help to the farmers during the shearing.

Yesterday we received a valuable acquisition to our museum, in the shape of a small piece of the new Atlantic Cable. The piece we have is the shore end, and very thick; the Montevidean cable is thirteen times as heavy, and eleven times as strong as the Atlantic cable. The laying of the cable begins on Monday morning, weather permitting. There was a meeting at the Consulate yesterday to arrange the matter. The telegraph posts are right down to the shore at Ensenada, the office put up, and the line will be complete about the first week in November.

The new Patent-office of the National Government is at last about to be established, and the decree of the Government in this regard was published yesterday. This office has been much needed, as there are numerous applications for patents, and hitherto none could be granted.

The Vice-President has accepted the patriotic offers of Messrs. Molina, Azcuenaga, Iturraspe, Lezica, and Mendez, to raise troops by means of bounty. The offer is truly patriotic, but we fear very much that they will find it very difficult to get any large number of men, as labor is so high here recruiting is not much heeded by the masses.

Two robberies have occurred in the neighbourhood of our office, at Mr. Huergo's and Dr. Quintana's. We have not heard what the robbers walked off with.

Brigadier Andrade is the name of the new Brazilian commander, who has arrived and goes up to-day in the steamer Uruguay to headquarters, with 230 men. It is rather a remarkable circumstance that the Emperor, in closing the Rio Chambers and addressing the senators on the Paraguayan war, did not make the slightest allusion to the Argentine or Oriental allies.

The new Argentine Bank of Rosario bids fair to eclipse all the other banks in the upper provinces. It has amalgamated the Entre Riano Bank; and, we hear, that besides branches, which it opens in all the river towns, it is now about to open small branches in even the internal towns of Entre Rios and Corrientes, Curuzu-Cuatia, Monte Caseros, Paso de los Libres, and we should not be even surprised to hear of a branch at Uruguayana. What business there can be in such small towns to support a bank, we certainly are at a loss to discover?

The Brazilian ironclads at present in port attract much attention; they are anchored alongside of the Nitheroy—one on each side. The one this side of the flag-ship has no turret whatever, but a sort of oblong house amidships; here we suppose are mounted the 150-pounders.

The steamers Cosmos and Susan Beirne were both anxiously looked for; they are both over due, and, as there is no sign of them, grave fears as to their being stuck on a bank exist.

The Rural Society, we suppose, will take charge of the question of Guias and other country imposts. There seems to be no fixed price for these guias; some town clerks charge double the prices others ask, and it would be well now, as the wool season is beginning, to regulate this item.

Minister Octaviano's secretary did not, after all, go to Rio—he sent his despatches on in the Arno and returned here in the Uruguay. He leaves immediately for Corrientes.

Dr. Costa, the Minister of Justice, will not leave here for headquarters before next week; the object of his mission is kept a great secret; his last journey resulted in sending up horses, and this trip we suppose will result in sending up men.

Our colleague the *Tribuna* is preparing a comprehensive guide or almanac for the ensuing year. As soon as the war concludes we purpose publishing a new *Hand-Book*, although, the truth be told, the first edition has not been yet exhausted.

General Flores, when he returned to Montevideo, landed at the Cerro and rode across to the city. The squeeze on the mole to see the Orientals landing was such, that some few fell into the water and got a refreshing bath.

The auction at the Lomas de Zamorra on Sunday promises to be a great affair; we hear numbers are going. The land offered for sale is in a splendid locality, not far from the Grigg farm, and near the site of the new Theatre.

There is nothing now talked of in town save the establishment of parochial hospitals: one has been opened in Calle Belgrano, hard by our office, another in Calle Tucuman, in Dr. Leslie's old house, and another in a convenient part of the parish of San Miguel. But this great fuss and noise made about hospitals, as far as we can see, is premature, inasmuch as yet the wounded have not arrived, and we are now beginning to think that the number of wounded soldiers coming to Buenos Ayres is much less than what was anticipated.

Señor Blanco del Valla, the Spanish minister in Rio, has been removed, and the Marquis de Alegre has been named to succeed him.

The Liverpool steamer Calypso, which has lately arrived in Montevideo was put in quarantine. She has been chartered by the Astronomical line, in a good round sum, to come to the River Plate.

Sor. Estrada's lecture next Friday will be the last of the series, and is given for the benefit of the wounded. Our friend, Sr. Estrada, has gained for himself an enviable reputation by these historic lectures; in fact, until recently, few were aware that Buenos Ayres could boast of a Gibbon or a Guizot. The light which Sr. Estrada has thrown not only on the early but on the modern history of this country, entitles him to the highest chair of literature in Buenos Ayres. Possessing a fine voice, graceful delivery, and a mind stored with historic lore, we predict for this talented young man the very brightest career; his lectures drew the most select audiences ever witnessed in this city,—men of every political shade might be seen at his lecture-hall. The series now closes, but as the lectures will shortly appear in a nice volume, those who have been unable to attend can make up their loss by getting this interesting work. The penultimate lecture will be given as usual to-night at the Model-chool in Calle Reconquista, 8 p.m.

The funeral ceremonies for the late Colonel Alejandro Diaz, who fell at Curupaiti took place yesterday: the church was crowded. The late officer spent five years at St. Cyr, a military school established by Napoleon I. At this school he distinguished himself, and ranked 23rd amongst some 400 students. He commanded at the battle of Cepeda, and was then sent to France to study by the Provincial Government of Buenos Ayres. His loss is severely felt in the army, and by a wide circle of friends in this city.

MAILS FROM ROSARIO.

MISSING FRENCHMEN IN SANTIAGO.

We have the *Ferro-Carril* of Thursday, with a leading article on the Conquest of the Gran Chaco: it seems the Santa Fe Government is going to fit out an expedition, and D. Mariano Cabal advances the necessary funds. On Tuesday, a riot was caused by some Brazilian officers who had got drunk, and three were wounded in resisting the police. An Italian, who had been quarrelling with his wife, blew out his brains on Monday, and lingered in great pain till Wednesday.

The *Norte* brings dates from Santiago del Estero to the 16th ult. The French Government having directed M. Lefebre de Becour to make enquiries about one Alphonse Besançon, who died and left a large property to a relative of his, named Antoine Jecker, the Governor reports having made every enquiry, and been unable to find any trace of either such Frenchmen: it seems they lived at a place called San Miguel, in the Province of Santiago, but the local authorities deny ever having known of such persons. There is evidently a mystery in the business.

A POST-MASTER IN DIFFICULTIES.

Now that Congress is closed, and that every reform we ask for must emanate from the Minister, we hope to be able to effect some good. All our prayers to Congress for the improvement of this port, have resulted only in the short notice calling for bids for the removal of the Pampero, which, as a matter of course, will amount to nothing; we give up, therefore, the River Plate, and turn our attention to that immense ocean of letter-paper and envelopes called the Post-office.

Amongst the leading men of the day, none occupy a more prominent position than our talented and energetic friend, Sr. Posadas. But high as is the estimation which we entertain for this gentleman, and freely as we admit the great improvements which he has introduced into his department, we are forced to confess that his 'employees' are destitute of that pluck which is so characteristic of Galway men.

The last mails from up the river have sufficed to convince us that the future Postmasters of the Republic should be Field-Marshals, or Generals, or 'gauchos' of the rudest stamp, instead of peaceful citizens or polished gentlemen.

An outrage has been perpetrated on the Postmaster of the city of Corrientes, which if it occurred in any other country would cause the immediate interference of the Executive; but, strange to say, in Buenos Ayres so little respect is paid to Postmasters, that the matter has not even excited a passing remark from our colleagues.

Three days before the battle of Curupaiti, the Governor of Corrientes, for some cause unknown, dismissed the Postmaster of that city, oblivious entirely of the fact that the dignitary in question owed him neither allegiance nor jurisdiction. The humbug of a decree from the Minister was gone through, the Postmaster was ordered to clear out at the shortest possible notice, and deliver up his post-office to the local authorities. Mr. Mallow (*neé* Malé), who was the Postmaster, in the blandest manner possible, refused to obey any man in the Republic save Dn. Gervasio Posadas. He was at once arrested, popped into prison, and, we suppose, put into the stocks. Shortly after, the Government 'escribano' entered the prison, accompanied by some soldiers, and demanded the key of the iron safe containing the postage stamps and the money. Malo, with the heroism of a Regulus, refused to deliver up the key in question: the four soldiers fell upon him, pinned him to the ground, tore his clothes, and took from his pocket the key they were in search of.

Now, it is not so much for the value of the postage stamps, or the few dollars that may have been in the post-office, that we call attention to this outrage, but it is that we view it as a direct insult to our next-door neighbor, Mr. Posadas. Maló has been roughly treated by the authorities of Corrientes, and got a beating from the soldiers which he will remember all his life. Postage stamps must indeed be at a premium when the Postmaster who sells them runs such imminent risk as our unfortunate friend, Mr. Maló. Had he been an agent of Lopez, instead of an 'employee' of Mr. Posadas, he could not have been treated worse, and as the poor man is still in prison we raise our voice for his liberation, and hope that the Postmaster-General of the Argentine Republic will interest himself in the matter. In view of this terrible 'pow-wow,' we hope that in future the 'Custos Rotulorum' of all provincial post-offices, the sellers of postage stamps, and the despatchers of the mail, shall be amply provided with bowie-knives and revolvers, in order to defend themselves against assault. Had Mr. Maló had a good Colt's revolver in his pocket when the four soldiers made their appearance for the key, Argentine postage stamps would be less abundant in the streets of Corrientes; and we hope the Postmaster, in whose behalf we take such a lively interest, will condescend to forward us a full and correct account of this scandalous outage.

THE AFFAIR OF CURUPAITY.

REPLY OF THE WAR-OFFICE TO GEN. MITRE.

Buenos Ayres, Oct. 1st 1866.

To the President of the Republic,

and General-in-chief of the Allies.

I have to acknowledge the receipt of Your Excellency's despatch of Sept. 24th relative to the feat of arms on the 22nd of said month, before the enemy's fortifications at Curupaity, which document I communicated to the Vice-president of the Republic and have been directed to reply to, as follows—

It is, no doubt, deplorable that the event of the 22nd was not crowned with such success as might have been expected from the valor of the Argentine and Brazilian troops who took part in the assault on the Paraguayan positions. We have still greater reason to regret the losses sustained in so heroic an effort to overcome the natural obstacles and immense works of defence thrown up at Curupaity. Nevertheless this glorious engagement has served to enhance, with greater splendor than ever before, the indomitable bravery of our men in performing deeds of daring that would seem almost incredible and fill everybody with admiration. Your Excellency will be pleased to accept for yourself and also communicate to the commanders, officers, and men of the Argentine army, an ardent vote of thanks which the Government, in the name of the nation, tenders to the pious defenders of the country.

In spite of the partial reverse we have sustained, the Vice-president trusts confidently that, with the powerful elements possessed by the Allies in Paraguay, Your Excellency may soon be able to announce a great victory that will shorten or perhaps decide the fate of the war. Meantime the National Government is busy in organizing new elements to reinforce the Argentine Legions, and I can assure Your Excellency that the people of the Republic will hasten with vigor to fulfil the sacred duties which the present state of affairs demands.

We were unjustly provoked to war by the Government of Paraguay, and had no other alternative than to vindicate at the cost of our blood the outrage on our honor, and at the same time insure future tranquillity by chastising the insolent aggressor, or shamefully renounce our historic traditions and a rank among civilized nations. This is the feeling of Government, and we shall spare no sacrifices, however painful, to bring the present war to a glorious end, whereon depend the honor and very existence of the nation: such also is the feeling of the people, who seek to uphold their reputation with the allies who share the brunt of the campaign, and aspire to merit the esteem of the nations who are looking on.

The entire Republic watches with jealous anxiety every movement of Your Excellency and the army to whose valor our dearest interests are entrusted: we sympathize with our gallant defenders in the sufferings and hardships they have undergone for the last 18 months: we have celebrated the series of memorable triumphs they have achieved, and gratefully appreciated all their courage, patience and military virtue. Your Excellency may therefore confide that we shall do our duty by animating and supporting the brave men who expose their breasts to the bullet and grape-shot of the enemy.

Meantime, those who have shed their blood in the sanguinary and glorious assault of the 22nd are well worthy, as Your Ex. says, of the special attention of Government and the gratitude of the Nation. Their names and heroic deeds shall never fade from the people's heart or from the imperishable pages of our history.

Having now fulfilled the orders of the Vice-president, I have the honor, moreover, to assure Your Excellency of my high esteem.

JULIAN MARTINEZ.

THE NAVARRO RACES.

Navarro, Oct. 1st, 1866.

After church on Sunday, the 23rd ult., the day before the races, crowds of people might be seen starting from Navarro for the race-course, which is close to the town, being only separated by a small arroyo. The course had been fenced in on both sides for about two squares, and the remainder marked out with a plough. On one side of the course might be seen two tents, put up, I suppose, to remind us of Irish fairs and races; on the other was a camp fire lighted, around which some gauchos were sitting cross-legged, like Turks, taking maté.

As I paced down along the course, which was as dry, clean, and smooth as the carpeted floor of an editor's parlour, my attention was attracted by the voice of an Irishman, making laws, in his own polite language, for the young Porteños. Presently, I heard another describing all the feats of horsemanship he did when following the hounds in Ireland—over stone walls, hedges, rivers, and even bogs. I thought of the description given lately in the *Standard* of a character under the fictitious name of John Won't Stick, sitting on the gate of a canal. On every side might be heard some opinion as to the result of the following day's races. There were several amateur races that evening; but night came on, and all repaired either to their respective homes or to Navarro, where numerous Irishmen might be seen chatting together in the greatest harmony.

Between 11 and 12 o'clock on Monday, the day fixed for the races, crowds might be seen flocking to the course from all directions, till such a multitude of people of all nations and colors and tongues were assembled as never before had been seen in these country districts. At one o'clock, the jockeys, after making themselves exactly six arrobes, mounted: Mr. Jas. Casey on Mr. Morris's 'gateado,' and Mr. John Kenney, from 25 de Mayo, on Mr. E. Gahan's 'sebruno,' (Vain Hope, that won the saddle last year.) Mr. Michl. Geoghegan, Lobos, and Mr. John Maguire, Navarro, were appointed judges. Mr. Edward Murphy started them with a flag. No other horses had been entered for this race, though there are six members in the club. This was a race of ten squares, for the Ladies' Purse. The two horses ran even for about three squares—head and head, as they say here, when Mr. Gahan's sebruno cut out and beat the other easily. There was some betting: I held $4,000 stakes for a few parties.

The next race was twenty squares, for the saddle. Three horses entered: Mr. Eugene Gahan's 'pangare' Lightheart, Mr. Thomas Kenney's 'colorado' Shamrock, and Mr. Casey's 'moro.' Mr. Thomas Gahan, jun., rode Lightheart, and came in about two squares a-head; Messrs. Casey and Kenney had a hard battle for second, but the former won by nearly a length. They carried the same weights as in the first race.

When each race was finished rockets were fired off, and the band played some appropriate tune—perhaps "The Conquering Hero," for aught I know.

There were several other races in the course of the afternoon; but night came on, and sent all the sportsmen to their homes in quietness. All passed off with the greatest harmony, and no fights.

GRAND MONETARY PROJECT.

CHEAP MONEY AND REVIVAL OF TRADE.

CONVERSION OF THE CURRENCY.

NO 'PATENTE' TAX NECESSARY.

The *Tribuna* publishes the following splendid project as a panacea for the evils of our present monetary condition: in theory it is one of the finest yet brought forward, but in practice numberless difficulties must arise, while we regard the idea of redeeming paper with paper as purely illusory. The project bears no signature, and will hardly be presented to the Legislature.

Art. 1. The Provincial Bank of deposits and discounts is to become a Bank of Emission.

Art. 2. It is authorized to emit a sum of 150 millions of paper-dollars, equivalent to double its actual capital.

Art. 3. This emission will be destined for the discount of bills with two responsible signatures, or with one signature and collateral securities of easy realization.

Art. 4. The Government is relieved from paying the Bank the present interest of 6 per cent per annum for the money expended on the Western Railway.

Art. 5. The proceeds of the Western Railway are assigned to the Provincial Government as a part of its final revenue, without the railway ceasing to be indebted to the Bank as before.

Art. 6. The Bank shall also pay to Government for its fiscal revenue the sum of two millions $ m|c. per annum, in quarterly payments, as proceeds of profits from this new emission.

Art. 7. Any further profits from said emission shall be capitalized among the Bank gains, and serve in due time for the redemption of the currency.

Standard value of paper money.

Art. 1. The par value of the currency is to be $25 m|c. per hard dollar.

Art. 2. From the promulgation of this law, all obligations contracted in paper-currency may, if the debtor so wish, be discharged in specie at 1 patacon per $25 m|c.

Art. 3. All obligations in specie shall be cancelled either in gold or in the equivalent of paper money.

CUSTOM-HOUSE LAW FOR 1867.

Chapter 1st.—IMPORTS.

Art. 1st. Gold and silver coined or in bullion, books, printing paper, plants of every kind, fresh fruits, ice, fire-wood, charcoal, cattle for breeding, are *free of duty*; as also Indian corn brought overland.

Art. 2nd. The Executive is authorized to allow to be imported duty-free all seeds for agriculture, and such articles as may be exclusively intended for Divine worship and ordered by curates or heads of religious fraternities; also scientific instruments, machinery for amalgamating metals or for the establishment of new industries, tools or furniture belonging to immigrants, and articles exclusively intended for use of the latter.

Art. 3rd. Silks, precious stones (unset), gold and silver wrought or manufactured with or without precious stones, and all instruments or utensils with handle or mounting of the above metals when such enhance them by one-third of their value, shall pay *Ten per cent. ad valorem.*

Art. 4th. All articles not hereinbefore expressed shall pay *Eighteen per cent.*

Art. 5th. The tare allowable on wines, spirits, liquors, beer in cask, and vinegar shall be calculated according to the port of clearance of the vessel, and only in the first port of the Republic where she enters, viz: 10 per cent for ports beyond the Line, 6 per cent on this side, and 3 per cent for ports within the capes at the mouth of La Plata. The breakage allowable for wines, spirits, liquors, beer, vinegar, and oil, in bottles shall be 5 per cent.

Chapter 2nd.—EXPORTS.

Art. 6th. Cow and horse hides of every kind, mule and sheep skins, and skins in general, hide-cuttings, salted and jerked beef, salted tongues, ostrich feathers, bones, bone-ash, horns and horn-tips, hair and wool washed or unwashed, animal oil, grease and tallow melted or in cask, and live-stock of horses, cows or sheep, shall pay *six per cent ad valorem.*

Art 7th. All other produce or manufacture not above-mentioned, as also gold or silver coined or in bullion, are *free of export-duty.*

Chapter 3rd.—CALCULATION OF DUTIES.

Art 8th. The duties shall be arranged by Vistas and calculated in the case of imports on the value of the goods in deposit, and in exports on their value in market at the time of exportation, excepting such as may, by their nature, be previously classified and valuated; and in the latter case the duties shall be set down in a Tariff of Valuation formed on the same basis of prices.

Art. 9th. The Executive shall designate and fix the valuation on the goods and products to be included in said Tariff.

Art. 10th. The export-duties shall be paid cash, and in the first place of embarkation, being goods despatched direct for foreign ports, and such cannot be sent by water from one part of the Republic to another without first paying duties or giving a guarantee in the manner the Executive may determine. Parties exporting live-stock are excepted as regards the obligation of paying the duties cash, and may give bills at 4 months on stamped paper in the usual way.

Chapter 4th.—GENERAL RULES.

Art. 11th. The payment of duties in any of the Custom-houses of the Republic may be made in any of the moneys specified by the law of Oct. 26th, 1863, or in paper money of the Province of B. Ayres, or in Bolivian silver at the current rate in market, or in specie certificates of the Provincial Bank. The national copper-currency will not be received at a higher proportion than two per cent. of the sum payable, and all negotiable documents are excluded in the payment of duties.

Art. 12th. In the Custom-houses of the Province of Corrientes the duties may be discharged in the paper money of said Province (until its amortization) at the current rate in market.

Art. 13th. Goods that have paid duties in any port of the Republic may pass freely through the whole territory: but transit overland is prohibited for such as have not paid duties, excepting goods in transit to Concordia or Brazilian ports on the Uruguay *via* Federacion or Restauracion, and from Paraguay to Brazil or the Oriental Republic *via* Restauracion and Federacion.

Art. 14th. This law shall hold from January 1st, 1867, to Dec. 31st, of same year.

Passed through Congress on Sept. 24th, 1866.

Signed by the National Executive and promulgated, Oct. 3rd, 1866.

PAZ,

L. Gonsalez.

NOTE.—The above law, of course, does not include the extra-duties of 5 per cent on imports, and 2 per cent on exports.

ON THE APPLICATION OF THE SCIENCES TO AGRICULTURE AND THE INSTITUTION OF A MODEL FARM.

The only basis of inexhaustible wealth is *Agriculture* and everything progresses in the country where it flourishes.

SULLY.

All civilized nations have had to pass through three marked periods:—the Pastoral; the Agricultural; and the Industrial, before they were able to combine and apply these three sources of national prosperity.

Were I called upon to decide in which of these periods the Argentine Republic may be at this moment, I would not hesitate to answer in the second, without however implying that she had quite emerged from the first. Into the third she has not yet entered and it is probable that many years must yet elapse, before Industry, in the true sense, that is to say in its relation to manufactures, will have become one of her avenues to wealth. It is not sufficient for her development that she should possess an ample supply of natural productions,—it is essential also that her lands should be tenanted by a large population which would not only sustain and advance her interests but which at the same time would consume such portion of her products as might not be required for foreign export. This increase of population can only be attained by immigration from Europe, a subject which cannot too much engross the attention of Government, for it is on this element that our national aggrandizement must be based in the first instance. Once let the country be even moderately settled over, and our future at once brightens. Even as we are, however, much can be done towards advancement.

I do not mean to affirm that every class of industry is neglected in this Republic. My remarks apply solely to the fabrication of articles which require a certain amount of ingenuity and manipulation, as well as to complicated and expensive machinery,—the want of such branches of industry placing us in a very unfavorable position in competing with other nations abundantly possessed of these resources.

In subsequent articles I propose to treat, *in extenso*, of the influence which the applications of science have upon agriculture, but for the present I shall confine myself exclusively to the exposition of certain general ideas bearing on a topic so intimately linked with the future of this Republic. Let me hope that my efforts to bring these highly important points more closely under the notice of those, who, from the position they occupy can best countenance and support them, may not be entirely without success.

That all human knowledge is based on experience is a truth too self evident to provoke discussion. In the infancy of every art, that experience is narrowed and knowledge is restricted to isolated processes, but as the art develops, a great number of new facts are brought to light and the generalization, arrangement and classification of these in conformity with certain laws and precepts constitute what is called the science or theory of that art.

Agriculture considered as an art had its origin in the earliest times; considered as a science, however, it is only in these latter ages that its systems and methods, issuing from the bonds of mere routine have been adjusted and moulded into those well balanced principles which now place it on a level with the other sciences under the name of *Agronomy*. Let me define the meaning of these apparently synonymous terms.

While the object of Agriculture is to augment the quantity and improve the quality of those vegetables and animal productions which man employs for his sustenance and use, in accordance with certain traditionary and simple rules, it is the higher aim of Agronomy to obtain this end as economically and completely as possible, for which purpose it calls to its aid the contrivances of the machinist and the deductions of the philosopher. Nor must we suppose that thought and inventiveness are thrown away on so apparently simple a matter as the pursuit of agriculture, for without this care and foresight we allow what might be utilized to run waste and cheat ourselves of at least a third of our profits.

A moment's reflection must convince us that agriculture is unquestionably the foundation of a nation's greatness. Hence it has engaged the attention of the most celebrated economists and the most eminent statesmen, by whom every possible exertion has been used to extend this branch of human activity in proportion to their powers and opportunities.

In every well-organized nation, Agriculture ought always to be protected by the Government; for, not only is it the root of solid and lasting wealth, but it is also the means of forming a sturdy and honorable peasantry—that column on which depend the hopes of families, of society and of the country. We have at least one example in modern times of the protection extended to it, in the case of the great Washington. That illustrious man began life as a labourer, and in this humble position, removed from the passions and superfluities of luxury, meditated on the realization of that work which immortalizes him, and who when it had become sufficiently consolidated, and he had been thrice re-elected President, voluntarily withdrew himself from this distinguished position to devote himself to his favorite works of agriculture:—"I am daily impressed with the conviction," said he "of how much more satisfactory to one's soul is the task of cultivating the earth and of multiplying its productions, than the vain glory of laying it waste with incessant conquests and wars." Well indeed would it be if our Governors would think like this great man!

In this country, more perhaps than in any other, Agriculture ought to be protected, because on the one hand its geographical position, its topography, its territorial extent, the diversity of its climates, and the fertility of its soil render it favorable to every sort of culture—circumstances which might well constitute it the granary and producer of every variety of raw material for the whole world; such, even now, is the function it performs as regards wool and hides; while if to this were conjoined the development of agriculture, we would escape that cause of all misfortunes—that cancer which eats into our vitality—*civil war!* Then the gaucho instead of leading his present half nomadic life would settle down and become the founder of a vigorous and well conducted family, ready and able to advance his country's good: Agriculture would thus prove the soil from which would spring up that education which is the germ of liberty!

At this moment we have as many lawyers as litigants, as many doctors as patients, and as for 'empleados' and public functionaries we have more than enough. What we most require are laborers, agricultural and others, men of intelligence and at least moderately skilled; but it seems as if a long time must yet elapse before our urgent necessities in this way will be supplied. This fact, considered with respect to a country whose territory is for the most part unoccupied, is a deplorable anomaly.

Employment, in which the position is that of a subordinate, subjects a man to the control and it may be the oppression of superiors; agriculture, on the contrary, inspires habits of indepen-

dence and the love of liberty. The former depresses human nature, accustoming it to passive submission, while the latter elevates and ennobles the man, and teaches him his proper worth, in short, the constant contemplation of all that is grand and beautiful—for nature is both beautiful and grand—inspires him with vast ideas and enables him the more fully to appreciate them.

But to obtain these results what requires to be done?

Thus far we have been contemplating the evil, let us now endeavor to point out a remedy.

Agriculture, like all the other pursuits, demands a certain degree of training on the part of its votaries, without which the results aimed at can scarcely be looked for.

Concurring entirely with the opinion of Sr. Dn. E. Olivera, who is so well versed in these matters, it appears to me that the most direct and efficacious mode would be to found a 'Model Farm, or Agronomical Institute,' where theory and practice would combine in the formation of sound and judicious principles, while it would also be necessary to organise means of instructing those who wished to participate in the benefits of this institution.

The studies, as I have said, would consist of theory and practice, and would, moreover, comprehend agronomy properly speaking, that is to say, those other branches, a knowledge of which would be essential to the objects in view, such as: agriculture, economy, botany, zooteeny, geology, chemistry, physics, mathematics, meteorology, and rural architecture.

Be it understood that the study of these sciences is both useful and necessary for an agriculturist or owner of a camp establishment, but in a general way, and as tending to advance the objects of agriculture. We do not pretend to make profound encyclopædists of our agriculturists, but we wish to see them possessed of such indispensable knowledge as will enable them adequately to fulfil the duties of their pursuits instead of following blindly in the beaten tracks of unreflecting routine.

It is to be hoped that the Argentine Rural Society, which has just been founded under such good auspices, will not fail to entertain this proposal, and that the eminent men who form its leaders, and whose patriotism has been well tried, will devote all their energies to bring about its speedy realization.

J. LACROZE,
Civil Engineer.

October 4, 1866.

LATEST FROM BRAZIL.

A Scotchman named Peter Donald took a boat upon the 10th to go on board a vessel in the harbor. On the way, however, one of the crew, a man called Narciso Antonio da Silveira, threw himself upon his passenger and after taking some 30$ from him threw him into the sea and left him to drown. Luckily, however, for the poor Scotchman a boat passing by picked him up when just about to sink and conveyed him to the city where information was given to the police and the boatman was arrested and committed to jail.

In memoriam of the death of H.H. the Princess Catharine Frederica Paulina, Duchess of Oldenburg and daughter of the Duke de Oldenburg, the Imperial Court went into mourning for seven days, counting from the 11th inst, the three last being of alleviated mourning.

By order of the Ministry of Marine the Italian vessel Magenta is to be considered a neutral vessel during the scientific voyage she is making.

A letter of General Osorio's states that the Brazilian forces under his command lost 920 killed and 3,200 wounded in all the fighting they were engaged in while he was at their head. The great losses occurred from disease, and at the end of May 10,400 were in the hospitals, including wounded. In June, however, the number had decreased to almost 8,000.

He also says that the Paraguayans had 6,000 killed besides a proportionate number of wounded.

Decree No. 3,697 of September 10th 1866 gives a three years exploring privilege to Messrs. Ignacio José Ferreira de Moura, Nathaniel Plant and John Landeel for the exploration of the mine of sulphuret of copper, &c., existing in the margins of the Quarahim between the arroyos Caguaté and Capivary in the province of S. Pedro do Sul. On the presentation of plans, specimens and report, up to 60 mineral datas will be granted for twenty years with the usual exemption from import duties for five years on the necessary tools and machines; a similar exemption for 5 years on the export of minerals; and other customary privileges and rights. 5:000$ are to be employed on each data taken up by the concessionaries.

Sres. Joaquin Antonio Fernandes Pinheiro, José Francisco Alves Malveiro, Dr. Manoel de Oliveira Fausto and Dr. Francisco de Assis Vieira Bueno have resigned their offices as directors of the Bank of Brazil.

The Hamburg barque Ricardo, Capt. H. J. Aurborn, from Hamburg for Valparaiso, 26 days out, was spoken on the 21st of August by the Danish Brig 'Rota' which entered this port upon the 12th inst.

A great meteor going from the Parahyba towards the Serra da Mantiqueira was seen upon the night of the 27th of August by persons belonging to the elevated chapel of N. S. da Apparecida. The United States Ship 'Thomas Lord' 19 days from Cardiff for Bombay, was spoken on the 7th of August in 18° 32' N. and 25° 25' W. by the Danish Bark 'Dannebrok.'

COMMERCIAL.

Exchange opened at 24d for Bank paper while private found takers at 24⅛ and 24¼ and some transactions have been reported at 24½.

To-day (22) the new *Commercial Bank* opened its rate at 24¼ and a large amount of private bills have been negotiated at 24⅜.

The estimated business by this packet is as follows: On London £350,000; on France some 800,000 francs taken at from 390 to 400 reis.

On Hamburg little has been done and 749 reis was paid for a moderate amount taken up.

Money continues in fair supply at from 8 to ten per cent.

Metals.—Sovereigns have declined in price, small lots finding buyers only at 10$200: but for a lot of 7,000 to 10$550 was obtained, and this may considered the quotation for large amounts.

Bank of Brazil shares have been sold at 180$, at which price they appear steady. The shareholders have nominated five of their number, in conjunction with two directors, to treat with the Government regarding the new regulation.

MEXICO.

IMPORTANT PROCLAMATION BY THE PRESIDENT OF THE UNITED STATES.

Washington, Aug. 17.

The following has been issued:

By the President of the United States of America: a proclamation.

Whereas, a war is existing in the Republic of Mexico, aggravated by foreign military intervention: *and whereas*, the United States, in accordance with their settled habits and policy, are a neutral power in regard to the war which thus affects the Republic of Mexico; *and whereas*, it has become known that one of the belligerents in the said war, namely, Prince Maximilian, who asserts himself to be Emperor in Mexico, has issued a decree in regard to the Port of Matamoros, and other Mexican ports which are in occupation and possession of another of the said belligerents, namely, the United States of Mexico, which decree is in the following words:—

"The port of Matamoros and all those of the northern frontier which have withdrawn from their obedience to the government are closed to foreign and coasting traffic during such time as the empire of the law shall not be therein reinstated.

"Article II. Merchandise proceeding from said ports on arriving at any other where the excise of the empire is collected, shall pay the duties on importation, introduction, and consumption, and on satisfactory proof of contravention shall be irremissibly confiscated. Our Minister of the Treasury is charged with the punctual execution of this decree.

'Given at Mexico, the 9th day of July, 1866.'

And whereas, The decree thus recited, by declaring a belligerent blockade unsupported by competent military or naval force, is in violation of the neutral rights of the United States, as defined by the law of nations as well as of the treaties existing between the United States of America and the aforesaid United States of Mexico: Now, therefore, I, Andrew Johnson, President of the United States, do hereby proclaim and declare that the aforesaid decree is held, and will be held, by the United States, to be absolutely null and void, as against the government and citizens of the United States; and that any attempt which shall be made to enforce the same against the government or citizens of the United States will be disallowed.

In witness whereof I have hereunto set my hand, and caused the seal of the United States to be affixed.

Done at the City of Washington, the 17th day of August, in the year of our Lord, 1866, and of the Independence of the United States of America the ninety-first.

ANDREW JOHNSON.

By the President:

WILLIAM H. SEWARD,
Secretary of State.

COLON.

October 4, 1866.

To the Editors of the *Standard*,

Gentlemen,

In looking over an English journal I remark that a series of cheap performances, at the close of the opera season in London, had been attended with great success. Now, why not give a hint to our indefatigable Sig. Pestalardo; if this gentleman would adopt this "penny postage stamp" system before the season comes to a close there would be a frightful rush to Colon: whereas at present, when even the very choicest opera is being sung, the house is miserably poor. I can assure you a great many "would-be opera goers" are prevented from attending owing to the monstrous high prices at present charged. Let Mr. Pestalardo reduce them say one-half and he will receive the sincere thanks of thousands, including, yours truly,

A LOVER OF MUSIC.

DEAD-LETTER OFFICE.

The Post-office having burned the old letters unpaid or uncalled for, the following documents were found among the contents. We publish only the English and German names—

Daniel Muir, a contract, June 5th, 1863.

Newnham & Co., a plan, Oct. 8th, '63.

Joseph Kavid, a payment, Nov. 24th, '63.

J. Klick, 5 guilders, Nov. 30th, '63.

W. H. Lohfeldt, bill of exchange, Hamburg, April 22nd, '64.

McEachen & Davidson, bill of exchange, Montevideo, Sept. 17th, '64.

Charles Morrison, passport, March 3rd, '65.

Anthony Shatz, passport, March 21st, '65.

William Digan, a letter, March 22nd, '65.

Robert E. Loft, letter, May 5th, '65.

Louis Clarke, a passport, August 19th, '65.

M. Gassen, bill of exchange, Aug. 23rd, '65.

Eliza Douthal, bill of exchange, Sept. 5th, '65

William Coleman, bill of exchange, December 21st, '65.

The parties can have the same by applying to the Postmaster-General, and proving their identity.

ON 'CHANGE.

October 5, 1866.

Papar price of ounces,	400½
Do. sovereigns,	122
First price of patacons,	25 05
Second,	25 00
Last,	25 05

Cash sales 30,700.

Specie ruled very weak to-day, and the tendency of the market is decidedly downwards. There was much said about the conduct of the Provincial legislators in not meeting last night, and many attribute this to the hostility of some of the members to the measure; however, every one regards such a system of opposition as undignified in the extreme. The proposed emission secured by the Treasury bills is just what is required for the present emergency; the National Government wants money to pay its present obligations; the public requires an enlargement of the currency, and as the emission in question cannot be regarded as destitute of security, it is regarded as serving all interests. A leading English broker stated in our presence to-day that if this bill is not passed patacons are dear at 24. It is to be hoped, therefore, that the legislature will treat the matter with the importance which it merits.

There was nothing new to-day about the Lopez war, although the Iron King arrived—she was nine days coming down, and reports the Eponina aground, with a cargo of wounded.

The great topic on 'Change to-day was the mooted departure of Sr. Lezama, with some other equally distinguished Argentine merchants, for Entre Rios. Every one is anxious to know the object of this mission, which is so much discussed but as yet nothing certain has transpired.

The Baron Mauá is expected here in 8 days, and we learn that he proposes residing some time in the River Plate. English merchants talk of the impondeng battle of the banks and the pleasing prospects of cheap money.

Exchange rules active, and a very good business was done to-day. The rate is 49½, but some few bills have been done under this rate; still we have it from one of the principal Exchange brokers, that the best bills have been done at 49½. Exchange on Rio—No rate, as there are no drawers; and no Rio treasury bills have as yet come down from the army. Exchange on France 5.15 to 5.18.

National Bonds rule very weak. One sale, 1,000, at 39 1/2, at which price there are sellers.

The time sales of specie were very trifling.

For Monday	2.000	25 05
Tuesday	2,000	25 05
Wednesday	2,000	25 05
Thursday	2,000	25 05
Friday	2,000	25 05
Saturday	44,700	25 05
October 31	24,000	25 10
December 31	1,000	25 15
Do. 12	3,000	25 10

The sales on long dates amount to 61,000.

The sale of Mr. M'Namara's estancia in Entre Rios, which we noted the other day, was at the price specified, but the purchaser is an Entre Riano, and not an Englishman.

The large withdrawal of money from the Provincial Bank to-day was mentioned on 'Change. We suppose it was gold.

In coals we have the following sales here:—

150 tons Glasgow, at 9 1/2 pats on two months.

469 do Cardiff, ex Concordia, at 11 pats, less 5 per cent.

300 do. from Rio, on same terms.

And in Montevideo we hear of the following sales:—

426 tons, ex Mozart, Cardiff, at 10¾ pats, five months.

200 do. Mario Nicolas, Newport and Liverpool, $10 m|c.

The Calypso ran aground entering Montevideo, but suffered nothing.

Messrs. C. W. Benn & Co. have effected the following charters:

Dutch brig Margaritha, to load coal for Paraná.

Dutch brig Kosmopolita, same cargo and destination.

Dutch brig Texel, for Rio Negro, Patagones, for salt.

LUMBER.

We have one sale, 240.000 feet ex H. A. Stephenson, at 53 pats.

Messrs. Tay & Upton have chartered, we hear, the Albatross, for the States. We have not heard the rates, but believe 6 pats. for bales.

The news of another wreck arrived to-day from Montevideo by whaleboat; the Jersey brig Offor struck on the English Bank and went to pieces. She had an assorted cargo consigned to Messrs. Getting & Co., and only 13 tons of cargo have been saved.

In the plazas we hear of the following sales:

3,000 dry hides, camp,	114
700 do. matadero,	123
600@ fine wool	75
200 doz. shoepskins,	200
150@ grease,	45
100@ horsehair, south,	125
4,000 American hides, 22lb.]	37r.

Prices marked at the Rural Society:

Novillos for saladero.	180
Cattle by the cut,	40

ARRIVALS—5th.

Italian polacre Animosa, from Porto Alegre, to Richard O'Shea and Co.

English schooner brig Porto Rico; from New York, to Samuel B. Hall and Co.

Hanoverian schooner brig.

Italian man,of-war Ersole, from Montevideo,

Prussian Brig,

Italian barque,

Austrian barque Anfitrite, from Bordeaux, to Bosc, Brothers,

Brazilian transport Princeza de Joinville, from Montevideo,

Iron King from Corrientes,

A barque,

BIRTH.

At the estancia, district Canuelas, the wife of Frederick A. Botsch, of a daughter.

MARRIAGE.

At São Paulo, on Sept. 3, by the Rev. R. F. Burton, H.B.M.'s Consul, Joseph E. Rule, Esq., of Falmouth (England), to Guilhermina, second daughter of Henry Fox, Esq., of that city.

DEATH.

At Spring Cottage, Petropolis, on Sept. 12, Mrs. Ann Marsh, relict of the late Mr. William Hoop Marsh of Rio Janeiro

STEAMBOAT AGENCY OF ALVAREZ & RISSO,
99½ Calle Reconquista.
Oriental steamer Solis, on Saturday, at 10 a.m., for Rosario and ports. From the Railway Station 25 de Mayo.
English steamer Villa del Salto, on Saturday, at 5 p.m., for Montevideo.

STEAMBOAT AGENCY OF W. MATTI & CO.,
30 Calle Cangallo.
The steamer Tala, on Sunday, at 10 a.m., for Rosario, Paraná, Santa Fé, and ports. From the Railway Station 25 de Mayo.
The steamer Rio Paraná, on Monday, at half-past 5 p.m., for Montevideo.

THE NORTHERN RAILWAY.

RATES FOR SEASON TICKETS.

	From 25 de Mayo. Months, 1.	2.	3.	From Retiro. Months, 1.	2.	3.
Palermo	$280	$540	$720	$230	$430	$570
Belgrano	420	810	1080	370	700	930
Rivadavia	570	1080	1440	510	970	1290
Olivos	710	1350	1800	650	1240	1650
San Isidro	850	1620	2160	790	1510	2000

Rosario, Setiembre 20 de 1866.

17..8p o5

Atencion.

En Chivilcoy, frente á la estacion del ferro-carril, el Domingo 7 á las 12½ continuará el remate de terrenos situados en ese gran centro de comercio. De los veinte lotes anunciados anteriormente y cuyos planos se han repartido, se han vendido en publico remate diez lotes en los que ya se han edificado dos: estos terrenos, distantes solo media cuadra de la estacion, son de mucho porvenir, siendo de notarse los valiosos edificios, pertenecientes á particulares, que se estan construyendo al costado sud de la estacion; á ese punto se dirigen no solamente los productos del floreciente Chivilcoy, sino la mayor parte de los pueblos inmediatos.

Al mismo tiempo se rematará una maquina de vapor nueva de fuerza de 8 caballos, una maquina de trillar trigo, que puede trillar, limpiar y embolsar 100 fanegas diarias con la maquina de vapor correspondiente.

Por otros informes ocurrase al escritorio del rematador,

CARLOS RISTORINI,
Calle de Tacuari No. 53.

BANKERS.
The Provincial Bank.

Condition on the 31st Aug., 1866.

CAPITAL SUBSCRIBED
$ 2,008,072 21c. silver

Number of Policies—1786.

Bonds purchased 357,992:81 silver.

The Bienhechora offers three various modes of Insurance to its subscribers: 1st, with the loss of capital by the death of the Insured party; 2nd, without loss of capital in said event; 3rd, with mere compound interest.

In the first form the Insured party has a right:

1. To compound interest on the bonds purchased with the capitals received by the Company.

2. To a proportionate share of the capitals and interest of those who die in their respective sections.

3. To a proportionate share of the capitals and Interests of forfeited subscriptions.

4. To a proportion of gains resulting from increased value of the National Bonds acquired by the inversion of funds.

In the second form the Insured claims:

1. Compound interest on the National Bonds purchased by the Association.

2. A proportionate share of the interest due on all the Capitals of those who die in the respective sections, which capitals are returned to the subscribers.

3. A proportion of the interest due on forfeited shares.

4. A proportionate share of the profits arising from the increased value of the National Bonds, acquired by the inversion of funds.

Finally, in the third form, gives a right to the corresponding interest produced by the Bonds purchased with their subscriptions, and the successive reinvestment of such interest, effected quarterly, when the coupons are paid up by the public treasury.

So marvellous are the benefits arising from the employment of Capitals in Public Funds, assisted by the combinations effected by "La Bienhechora," based upon the Mortality Tables of Deparcieux, and the interest produced by the 6 per cent. Consolidated Bonds, that taking for a model, the result given by other companies established precisely in the same form and basis, but with an accumulative interest much inferior to that gained by the "Bienhechora", that it is enabled to present as positive the following tables showing the gradual progression of capitals for a subscription of:—

100 Silver Dollars annually, with loss of Capital through the death of the Insured.

	in 5 y'rs.	in 10 y'rs.	in 15 y'rs.	in 20 years	in 25 years
On the head of a child from 1 day to 1 year.	1200	4350	9800	21600	60000

IMPORTANT TO SHEEP-FARMERS.
SOUTH-DOWN SHEEP WASH,
(PURE EXTRACT OF TOBACCO).
This celebrated Sheep Wash possesses the following advantages:—
It completely cleanses the skin, thereby promoting the growth of the wool and improving its appearance, at the same time leaving no stain, a most desirable object to the sheep breeder.
It possesses remarkable healing properties and prevents contagion from skin diseases
For the scab, either as an ointment or wash, it is used with the best results.
It is soluble in water, and easy of application, and can be used without the slightest danger to sheep or lambs.
By the use of this material the farmer is relieved from the laborious and disagreeable preparation of the Wash on his own farm.
The South-Down Sheep Wash is now on Sale at a reduced price at

Buenos Ayres, Agosto 1.° de 1866.
JULIO A. MESQUITA.

SAVINGS BANK.
BANK MAUA AND CO.
101--Cangallo--103.
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.
The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.
The sums deposited in that very important institution are daily increasing, and already reach a very large amount.
These advantages have not hithorto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.
The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cange from nine a.m. till Three p.m. on Week Days and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.
The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.
The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.
The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.
The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.
Buenos Ayres, September 19, 1863.
P.P. MAUA & Co.,
WILLIAM LESLIE.

CONDITIONS.
First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.
Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.
Third—The depositors can at any time retire the whole or part of the money deposited.
Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.
Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.
P. P. Mauá & Co.
WILLIAM LESLIE.

RIVER PLATE STEAM-SHIP COMPANY.
LIVERPOOL AND RIVER PLATE DIRECT.
NAMES OF STEAMERS.
LA PLATA (new).
ADA, CORDOVA,
URUGUAY, LEDA,
One of these Steamers will leave Liverpool for Montevideo and Buenos Ayres on the 10th of each month.
Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any part of the United Kingdom, or on the Continent, being forwarded by railway and steamer for account of the Company, the bills of lading being signed with these conditions.
As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.
Specie and Parcels will be received until the day before the steamers leave.
In order to facilitate immigration to these countries the rates have been reduced as follows—
1st Class.....£35.
2nd ,, ...£25.
3rd ,, ...£16.
Return Tickets will be issued for six months at the following rates—
1st Class.....£65.
2nd ,, ...£45.
3rd ,, ...£30.
These boats are excellent opportunities for families visiting Europe, more especially when consisting of Ladies and Children, having large ladies' cabin, and carrying an experienced stewardess.
The ss. ADA, Captain PIM, will leave this port on Saturday 13th October.

HEALTH TO THE INVALID
BY
HOLLOWAY'S PILLS
LOSS OF APPETITE—LOSS OF STRENGTH—LOSS OF HEALTH.
The marvellous effect of this fine medicine upon the system is such as to immediately rally all the vital functions, the appetite is soon restored, a full flow of spirits quickly follows, the body becomes immensely invigorated with a certainty of restored health: fresh air and a little exercise are necessary to bring about a permanent state of things. Holloway's Pills impart tone and energy to the most delicate constitutions, and in a manner as to astonish all who take them. By their extraordinary virtues they have obtained the largest sale of any medicine in the world.
HEAD, LUNGS, AND STOMACH.
Look to the regularity of the functions of these foundations of vitality. Holloway's Pills restore to order the slightest departure from the proper action, and therefore may be considered as the regulators of the main spring of human life. Apoplexy can always be prevented if the proper action of the bowels be attended to, which this famous medicine never fails to accomplish. Disorders of the head and heart often terminate suddenly and fatally from obstructions in the system, which might generally be prevented by taking small and regular doses of this fine corrective.
No medicine can be so infallibly relied upon for overcoming all obstructions as these Pills. They never fail to restore a healthy action throughout the system. The printed instructions will enable all to correct the first symptoms of disease, and avert many serious maladies. Holloway's Pills soon change the sickly and sallow complexion, thus renewing the bloom of health. To females entering into womanhood, or at the turn of life, these Pills will be found invaluable. They should be taken two or three times a week as a safeguard against dropsy, headaches, palpitations of the heart, and all nervous affections, so distressing at certain periods.
SICK HEADACHE, INDIGESTION OR FOUL STOMACH, AND DISORDERED LIVER.
In such a deranged state of health the food is decomposed instead of being digested, and proves poisonous rather than nutritious. This derangement can be at once set right by a course of these purifying and digestive Pills, which have acquired for themselves an imperishable fame for the mastery they have constantly exercised over the digestive organs. Holloway's Pills increase the appetite regulate the liver, repress biliousness, healthily stimulate the kidneys, and move the bowels in a more wholesome and natural manner than any other medicine.
DISORDERS INCIDENTAL TO CHILDREN.
The liver and stomach of children are, from many causes, often out of order, as they are allowed to eat many things that would disagree with their parents, hence their blood becomes impure, and liable to take any disease that is prevalent, and that in the worst form. One Pill, reduced to a powder, and put into a little water, given occasionally to children of twelve months old, and to those of three or four years, three Pills, and to others of seven years of age, four Pills—will always make children look blooming and healthy. Seventy-five out of every hundred do not reach the age of maturity. Holloway's Pills would not only preserve their health, but save the lives of thousands. Many people foolishly think that children only require a little medicine twice a year.
DROPSY.
This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending regularly to the proper action of the liver and stomach; these organs, at this time of life, have a great tendency to derange; hence, when asthma, dropsy, or disease of the heart often sets in. The blood requires frequent elimination which no other medicines can so effectually perform as these purifying Pills, as they purge gently, and act immediately upon the liver and stomach, and thus remove all obstructions which at the turning point of life always occur. This dangerous period should be closely watched; two doses a week of about six Pills will ward off all dangerous diseases. But in all cases of dropsy the Ointment is a wonderful and sovereign remedy and must be effectually rubbed twice a day into the suffering parts.
Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Female Irregularities	Rheumatism
Asthma	Fevers of all kinds	Retention of Urine
Bilious Complaints	Fits	Scrofula, or King's Evil
Blotches on the Skin	Gout	Sore throats
Bowel Complaints	Head-ache	Stone and Gravel
Colics	Indigestion	Secondary Symptoms
Constipation of the Bowels	Inflammation	Tic-Douloureux
Consumption	Jaundice	Tumours
Debility	Liver Complaints	Ulcers
Dropsy	Lumbago	Venereal Affections
Dysentery	Piles	Worms of all kinds
Erysipelas		Weakness from whatever cause

N. B.—Direction to the guidance of patients in every disorder are affixed to each Pot, and can be had in any language, even in Chinese.
Sold at the Establishment of Professor Holloway 244, Strand, (near Temple Bar,) London and by all respectable Druggists and dealers in Medicine throughout the civilised world, at the following prices:—1s. 1½d., s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

CONSUMPTION,
Chest Affections, Chronic Cough, General Debility, and Loss of Nervous Power.
DR. CHURCHILL'S
HYPOPHOSPHITES.
The following are the preparations used by most eminent members of the Medical Profession, in every country in the world, for the cure of the above complaints:—
Syrup of Hypophosphite of Soda,
Syrup of Hypophosphite of Lime,
Pills of Hypophosphite of Quinine,
and in cases where ferruginous preparations are required (chlorosis, anemia, etc.,) the
Syrup of Hypophosphite of Iron,
Pills of Hypophosphite of Magnesc.
These valuable medicines have saved the lives of many consumptive patients. Even in the third stage their beneficial effects have been manifested frequently. In every instance, however far advanced in the disease, the patient will find a marked improvement, both in local and general symptoms. There will be observed a remarkable increase of nervous power, a better appetite, greater regularity of the bowels, better digestion, less cough; less expectoration, less susceptibility of catching cold, less perspiration at night, etc.
Dr. Churchill's Hypophosphites are sold, with directions for use, at four francs per bottle, in France, by Swann, Pharmacien, 12, Rue Castiglione, Paris.

IMPORTANT TO SHEEP-FARMERS.
SOUTH-DOWN SHEEP WASH,
(PURE EXTRACT OF TOBACCO).
This celebrated Sheep Wash possesses the following advantages:—
It completely cleanses the skin, thereby promoting the growth of the wool and improving its appearance, at the same time leaving no stain, a most desirable object to the sheep breeder.
It possesses remarkable healing properties and prevents contagion from skin diseases
For the scab, either as an ointment or wash, it is used with the best results.
It is soluble in water, and easy of application, and can be used without the slightest danger to sheep or lambs.
By the use of this material the farmer is relieved from the laborious and disagreeable preparation of the Wash on his own farm.
The South-Down Sheep Wash is now on Sale at a reduced price at
66 CALLE MORENO AND 255 CALLE DEFENSA.

Buenos Ayres, Agosto 1.° de 1866.
JULIO A. MESQUITA.

SAVINGS BANK.
BANK MAUA AND CO.
101--Cangallo--103.
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.
The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.
The sums deposited in that very important institution are daily increasing, and already reach a very large amount.
These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.
The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Canga from nine a.m. till Three p.m. on Week Days and on Sundays and Holidays from Ten a.m. to Twelve m.. for the reception of the savings of the classes already mentioned.
The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.
The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.
The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.
The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.
Buenos Ayres, September 19, 1863.
P.P. MAUA & Co.,
WILLIAM LESLIE.

CONDITIONS.
First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.
Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.
Third—The depositors can at any time retire the whole or part of the money deposited.
Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.
Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.
P. P. Mauá & Co.
WILLIAM LESLIE.

RIVER PLATE STEAM-SHIP COMPANY.
LIVERPOOL AND RIVER PLATE DIRECT.
NAMES OF STEAMERS.
LA PLATA (new).
ADA, CORDOVA,
URUGUAY, LEDA,
One of these Steamers will leave Liverpool for Montevideo and Buenos Ayres on the 10th of each month.
Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any part of the United Kingdom, or on the Continent, being forwarded by railway and steamer for account of the Company, the bills of lading being signed with these conditions.
As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.
Specie and Parcels will be received until the day before the steamers leave.
In order to facilitate immigration to these countries the rates have been reduced as follows—
1st Class.....£35.
2nd ,, ...£25.
3rd ,, ...£16.
Return Tickets will be issued for six months at the following rates—
1st Class.....£65.
2nd ,, ...£45.
3rd ,, ...£30.
These boats are excellent opportunities for families visiting Europe, more especially when consisting of Ladies and Children, having large ladies' cabin, and carrying an experienced stewardess.
The ss. ADA, Captain PIM, will leave this port on Saturday 13th October.

HEALTH TO THE INVALID
BY
HOLLOWAY'S PILLS
LOSS OF APPETITE—LOSS OF STRENGTH—LOSS OF HEALTH.
The marvellous effect of this fine medicine upon the system is such as to immediately rally all the vital functions, the appetite is soon restored, a full flow of spirits quickly follows, the body becomes immensely invigorated with a certainty of restored health: fresh air and a little exercise are necessary to bring about a permanent state of things. Holloway's Pills impart tone and energy to the most delicate constitution, and in a manner as to astonish all who take them. By their extraordinary virtues they have obtained the largest sale of any medicine in the world.
HEAD, LUNGS, AND STOMACH.
Look to the regularity of the functions of these foundations of vitality. Holloway's Pills restore to order the slightest departure from the proper action, and therefore may be considered as the regulators of the main spring of human life. Apoplexy can always be prevented if the proper action of the bowels be attended to, which this famous medicine never fails to accomplish. Disorders of the head and heart often terminate suddenly and fatally from obstructions in the system, which might generally be prevented by taking small and regular doses of this fine corrective.
No medicine can be so infallibly relied upon for overcoming all obstructions as these Pills. They never fail to restore a healthy action throughout the system. The printed instructions will enable all to correct the first symptoms of disease, and avert many serious maladies. Holloway's Pills soon change the sickly and sallow complexion, thus renewing the bloom of health. To females entering into womanhood, or at the turn of life, these Pills will be found invaluable. They should be taken two or three times a week as a safeguard against dropsy, headaches, palpitations of the heart, and all nervous affections, so distressing at certain periods.
SICK HEADACHE, INDIGESTION OR FOUL STOMACH, AND DISORDERED LIVER.
In such a deranged state of health the food is decomposed instead of being digested, and proves poisonous rather than nutritious. This derangement can be at once set right by a course of these purifying and digestive Pills, which have acquired for themselves an imperishable fame for the mastery they have constantly exercised over the digestive organs. Holloway's Pills increase the appetite regulate the liver, repress biliousness, healthily stimulate the kidneys, and move the bowels in a more wholesome and natural manner than any other medicine.
DISORDERS INCIDENTAL TO CHILDREN.
The liver and stomach of children are, from many causes, often out of order, as they are allowed to eat many things that would disagree with their parents, hence their blood becomes impure, and liable to take any disease that is prevalent, and that in the worst form. One Pill, reduced to a powder, and put into a little water, given occasionally to children of twelve months old, and to those of three or four years, three Pills, and to others of seven years of age, four Pills—will always make children look blooming and healthy. Seventy-five out of every hundred do not reach the age of maturity. Holloway's Pills would not only preserve their health, but save the lives of thousands. Many people foolishly think that children only require a little medicine twice a year.
DROPSY.
This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending regularly to the proper action of the liver and stomach; these organs, at this time of life, have a great tendency to derangements, when asthma, dropsy, or disease of the heart often sets in. The blood requires frequent elimination which no other medicines can so effectually perform as these purifying Pills, as they purge gently, and act immediately upon the liver and stomach, and thus remove all obstructions which at the turning point of life always occur. This dangerous period should be closely watched; two doses a week of about six Pills will ward off all dangerous diseases. But in all cases of dropsy the Ointment is a wonderful and sovereign remedy and must be effectually rubbed twice a day into the suffering parts.
Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Female Irregularities	Rheumatism
Asthma	Fevers of all kinds	Retention of Urine
Bilious Complaints	Fits	Scrofula, or King's Evil
Blotches on the Skin	Gout	Sore throats
Bowel Complaints	Head-ache	Stone and Gravel
Colics	Indigestion	Secondary Symptoms
Constipation of the Bowels	Inflammation	Tic-Douloureux
Consumption	Jaundice	Tumours
Debility	Liver Complaints	Ulcers
Dropsy	Lumbago	Venereal Affections
Dysentery	Piles	Worms of all kinds
Erysipelas		Weakness from whatever cause

N. B.—Direction to the guidance of patients in every disorder are affixed to each Pot, and can be had in any language, even in Chinese.
Sold at the Establishment of Professor Holloway 244, Strand, (near Temple Bar,) London and by all respectable Druggists and dealers in Medicine throughout the civilized world, at the following prices:—1s. 1½d., s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

CONSUMPTION,
Chest Affections, Chronic Cough, General Debility, and Loss of Nervous Power.
DR. CHURCHILL'S
HYPOPHOSPHITES.
The following are the preparations used by most eminent members of the Medical Profession, in every country in the world, for the cure of the above complaints:—
Syrup of Hypophosphite of Soda,
Syrup of Hypophosphite of Lime,
Pills of Hypophosphite of Quinine,
and in cases where ferruginous preparations are required (chlorosis, anemia, etc.,) the
Syrup of Hypophosphite of Iron,
Pills of Hypophosphite of Magnese.
These valuable medicines have saved the lives of many consumptive patients. Even in the third stage their beneficial effects have been manifested frequently. In every instance, however far advanced in the disease, the patient will find a marked improvement, both in local and general symptoms. There will be observed a remarkable increase of nervous power, a better appetite, greater regularity of the bowels, better digestion, less cough; less expectoration, less susceptibility of catching cold, less perspiration at night, etc.
Dr. Churchill's Hypophosphites are sold, with directions for use, at four francs per bottle, in France, by Swann, Pharmacien, 12, Rue Castiglione, Paris.

RIMMEL'S
Toilet Vinegar
is far superior to any Eau de Cologne, as a tonic and refreshing adjunct to the Toilet or Bath, a revived perfume and a powerful disinfectant. Its useful and sanitary properties render it an indispensable requisite especially in warm climates.
OTHER ARTICLES RECOMMENDED—
RIMMEL'S LAVENDER WATER, distilled from Mitcham flores.
RIMMEL'S JOCKEY CLUB, Frangipane, etc. of exquisite fragrance.
RIMMEL'S GLYCERINE, Hogey, Windsor, and other Toilets Soaps.
RIMMEL'S LIME JUICE, and Glycerine for beautifying the Hair.
RIMMEL'S PERFUME VAPORIZER, Perfume Fountains, etc. etc.
Sold by all Perfumery Venders.
E. RIMMEL, Perfumer to H. R. H. Princess of Wales.
